2 DEC15-04

- 1) This meeting was a quick meeting to discuss the distribution between the documentation for both teams. Specific portions of the documentation / design was split between the team members.
- 2) The second portion of the meeting was in regards how Weekly Reports are handled. A new excel document on our google drive will now be the main source of where the communications manager will get logs of contribution between people instead of email/SMS people individually.
- 3) We also talked about and introduced the use of Trello within our project. This task managing application will help us know what is being worked on as well as what needs to be completed during the timeframe of our project sprints.
- 4) The last portion of the meeting was discussing our meeting with Ensoft. The 18th we would be heading down to EnSoft to talk with Jeremías. We would cover a list of parts that we would find viable for the project, as well as software use cases. Other topics were talked about in regards to the meeting.
- 5) We have a meeting with Ted Krepos in Iowa City on Sunday (28th).

Accomplishments this week:

06 - As a team we held a meeting discussing the design documentation of the project, as well as talking with Jeremías about the details that should be incorporated in the project. Meeting with Jeremías went well. We talked over the hardware specifications, he said to continue what we are doing and send in a finalized part list by sometime next month.

Pending Issues:

06- Have not met with the main client Ted. We will be meeting with him next week Sunday (28th).

Planning:

06

1. Finalize the parts we need for this device. (*Continued from Week 4*).
2. Website was uploaded to the webspace Iowa State provided. All documentation will be placed on this web server. (*Continued from Week 4*).
