- i. Honestly, this week was a simple week. We finalized our parts list and put a request to Jeremías to get it ordered. Other than that, nothing really happened with the growth of our project.

Accomplishments this week:

08 - We ordered the parts.

Pending Issues:

08- We have to wait for the parts to come in. This downtime, we will consult as separate teams (Software / Hardware) to see what sort of planning and route we need to take. The software side has a skeleton app that is uploaded to Git that we will be using to work with.

Planning:

08

- i. We have to wait for the parts that we ordered. *(Continued)*
- ii. Set up 2 mobile applications. (1 for the Physician | 1 for the client) *(Continued)*
- iii. Have prototype setup / basic application with data transfer by the end of this month going into April. (March - April) *(Continued)*
